

Sign Copy Area Computation

Measurement of a ground or pylon sign area shall be of the sign face excluding the necessary supports or uprights on which the sign is placed.

Calculate sign area defined by rectangular panel surrounding copy. Do not include embellishments or support.

Calculate sign area defined by sum of oval panels surrounding copy. Do not include support.

The area of signs which have a face, border or trim shall consist of the entire surface area of the sign on which copy could be placed.

The area of a sign whose message is applied to a background which provides no face, border or trim shall be the area of the smallest rectangle which can encompass emblems and other elements of the sign message.
